

ShopRoll52

52L Basket

100% recyclable

Best option for point of sale

Tidiness and minimum occupation of space

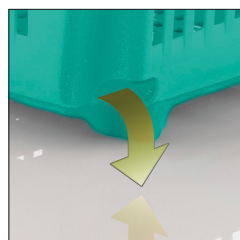

Reversible stacking guarantees tidy storage and maximises free space in the store. Its shape also optimises space when in use, as it takes up less room in shop aisles compared to other solutions.

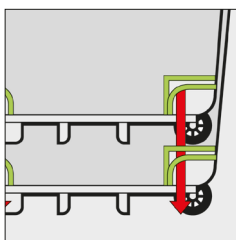

Stacking reversibility.

Hygienic

It is designed to stay clean during use at the POS.

Dirt evacuation system.

Hygienic stacking.

Protected shafts.

Antibacterial handle.

Other features

Different anti-theft systems.

Reinforced base.

50 mm fixed wheels.

Great shopping capacity and tidiness

Items can be tidily arranged thanks to its square shape, preventing delicate items from being crushed or damaged. Adapted to all sectors.

Extendable handle

52L

Ergonomics and Comfort

The user does not have to carry heavy shopping. Greater height with extended handle. Adaptable to different user heights. The angle of the basket when in use accompanies the body's natural movement. Great manoeuvrability and convenience.
