

External mirrors

The Traffic DeLuxe mirror is suitable for congested areas like roads, car parks and warehouses. It is available in two different versions according to the degree of high impact resistance desired:

Traffic de Luxe Hard: This model is made of high-impact acrylic, mounted with a black PVC gasket and a white high impact frame. (same design as basic model)

This mirror is recommended for areas prone to urban vandalism or severe weather conditions.

Sizes available: 40x60 - 60x80 - 80x100 cm.

Both Traffic DeLuxe models are available with three different types of pole fixing Ø 48 mm, Ø 60 mm or Ø 76 mm, or with a separate wall attachment depending on the users' needs.

| Codice Code | Dimensioni (mm.) Size (mm.) | Peso (Kg.) Weight (Kg.) |
|----------------|--------------------------------|----------------------------|
| | 400 x 600 | 3.81 |
| | 600 x 800 | 6.93 |
| | 800 x 1000 | 9.85 |
| | Ø 600 | 3.60 |
| | Ø 800 | 6.00 |
| | 400 x 600 | 4.41 |
| | 600 x 800 | 7.53 |
| | 800 x 1000 | 10.45 |
| | Ø 600 | 4.00 |
| | Ø 800 | 6.50 |
